LRC brings construction expertise and ongoing communications to all your projects, ensuring a smooth and easy process from the first design ideas through the final finishing detail.

We've built some of the best.

Our clients include top names in the industry: retailers with the highest quality standards and creative requirements.

"We had a complicated construction project, but Landmark was able to get the job done, and had some really creative solutions to our space challenges."

Daniele Minestrini, Diesel

"Landmark did a great job. They stayed on schedule and on budget, and we got beautiful results."

Brent Saul, Director of Construction, Liz Claiborne

Are fast and flexible.

We work quickly to meet your deadlines, but can also make adjustments to accommodate changes and special requirements you have.

Address the big picture, and the small details.

We take on every project holistically, paying as much attention to the final touches as we do to the grand scheme.

BEFORE

AFTER

CASE STUDY: Kate Spade, NYC.

Thursday morning the CEO walks into the Kate Spade store on Fifth Avenue and requests the store be completely overhauled and reinvented. The store is open to customers Friday and Saturday, so

LRC must work through the nights. They finish Sunday morning, and on Monday the CEO comes back in, is thrilled with the results, and wants the new design to roll out nationally.

And provide the attention and responsiveness you deserve.

We pride ourselves on our attentiveness, and challenge-solving abilities. Throughout your project you will be kept consistently apprised of the progress, the schedule, the costs, and any changes.

When you choose LRC you can relax, knowing that your project is in the right hands. We take charge, enabling you to focus on your core business.

"LRC is perfect if a project is challenging and fast-paced; meeting deadlines while maintaining excellent quality is their strength."

Elena Benassi Pupillo, Director of Store Design, Lucky Brand Jeans
